Hanlin Zhao

CUHK AIST undergraduate | AI/ML and software engineering internships - Summer 2027

zhl2104405665@gmail.com | Website | GitHub | OpenReview

Machine learning | Computer vision | Embodied AI | Vision-language-action models

Education

The Chinese University of Hong Kong 2025 - 2029 (expected)

BEng in Artificial Intelligence: Systems & Technologies

CGPA: 3.883/4.000 | Dean's List 2025/26

Relevant coursework: Recommender Systems (STAT3009); Regression Analysis (STAT3008)

Research Experience

AI Robotic Perception Lab, CUHK Aug 2026 - Present

Undergraduate Researcher | Supervisor: Prof. Hongliang Ren

Support experimental design, run experiments, and train models for self-evolving AI research.

Research topics include self-evolving robot policies, endoscopic navigation, and robotic irrigation.

Papers and Preprints

EndoRSI: Physical-Evidence-Driven Recursive Improvement of Endoscopic Robot Policies

C. K. Ng, Y. Zhang, T. Wu, S. H. Lui, **Hanlin Zhao**, et al.

arXiv:2610.13376, 2026 | Preprint

EndoVLA-OOV: Language-Conditioned Out-of-View Target Acquisition in Robotic Endoscopy

C. K. Ng, Y. Zhang, T. Wu, Z. Tang, **Hanlin Zhao**, et al.

arXiv:2610.24747, 2026 | Under review at IEEE TRL

EICARL: Traversability-Aware Decision Making Through Bounded Attempts in Narrow-Lumen Navigation

C. K. Ng, T. Wu, L. Bai, **Hanlin Zhao**, et al.

CoRL workshop | Accepted

Selected Engineering Projects

Movie Recommendation System | Python, NumPy, pandas

Implemented biased matrix factorization and rating baselines with validation-based model selection, cold-start fallbacks, saved artifacts, and a recommendation CLI.

Background Sensitivity in CLIP | Python, PyTorch, OpenCLIP

AIST1000 seminar project evaluating frozen CLIP on 370 images with paired background interventions and bootstrap intervals; a cropping robustness benefit remains unresolved.

Selected Honors and Activities

Lee Quo Wei CUHK Golden Jubilee Scholarship; CUHK Entrance Scholarship

ELITE Stream Scholarship 2025/26; Honours at Entrance

Top 8, World Chinese Debate Invitational Tournament

Shaw College Ambassador | ICP Mentor | Chinese Debate Team

Technical Skills

Python, C, R | NumPy, pandas, PyTorch, Git, CMake
